Re: U.S. Patent Application Serial Number 10/512,024
Our ref: 0-06-224 (16120/US/03)

Dear Mr. Tushin:

This letter will confirm our telephone conversation of earlier today.

Your firm erroneously filed an assignment document against U.S. patent application serial number 10/512,024. We say erroneously because (1) this patent application's (i) inventor is Abdullah I. Haj-Yehia and (ii) assignee is Yissum Research and Development Company of The Hebrew University of Jerusalem; and (2) the assignment document filed by your firm identifies the assignor as Antti Tarkianen and the assignee as ABB OY. Obviously, your firm's assignment document should not have been recorded against our client's application, but recorded against a different patent application.

According to the USPTO's records, your firm's docket number is 66411-092 and the reel/frame number is 016291/0811.

We understand your firm has agreed to correct this assignment issue. In particular, we respectfully request your firm correct this assignment issue on an expedited basis.

We make this expedited request because the USPTO currently refuses to acknowledge our power of attorney document in view of this assignment issue.

Please confirm receipt of this letter and provide us with a copy of the documents submitted to correct this assignment issue.

Thank you for your time and consideration in addressing this issue.

Very truly yours,

ROACH, BROWN, MCCARTHY & GRUBER, P.C.
